- Managed administrative tasks including data entry, document preparation, and record management.
- Prepared quotations, invoices, purchase orders, and project documentation.
- Coordinated with suppliers and clients regarding project-related documents and submissions.
- Maintained organized filing systems and supported overall project coordination.

EXTRACURRICULAR ACTIVITIES

Final Year Project – Academic Research Analytics and Monitoring System for UTHM (ARAMS) **April 2025 – Present**
- Designed and developed a full-stack web-based research analytics platform using PHP, MySQL, and JavaScript, enabling administrators to monitor lecturer research performance including publications, grants, and H-Index in real time.
- Built key modules such as grant management, report generation (Excel/CSV/PDF), role-based access control, and an individual lecturer performance dashboard with dynamic data visualization.
- Applied the Prototype methodology to iteratively gather requirements, conduct user testing, and refine system features based on stakeholder feedback from UTHM FSKTM staff.

Athlete – 2nd Place Winner - Piala Sukan FSKTM **Nov 2025**

- Led the team in the FSKTM Sports Tournament and secured 2nd place in the competition.
- Coordinated team strategies, managed player positions, and ensured effective communication during matches.
- Motivated and guided team members to maintain performance and teamwork under pressure.
- Demonstrated leadership, discipline, and strong decision-making skills throughout the tournament

Facilitator – Minggu Haluan Siswa (MHS) Program **Sept 2025**

- Facilitated the orientation program for first-year undergraduates, guiding them through campus life and academic preparation.
- Assisted in planning and executing program activities, ensuring smooth flow and student engagement.
- Strengthened leadership, communication and mentoring skills by supporting new students in adapting to university life.

PROJECTS

NutriScan Clinical

- Developed an AI-powered hospital meal monitoring system using Next.js, TypeScript, PostgreSQL, and Prisma ORM
- Integrated GPT-4o Vision API for food recognition and portion estimation from meal tray images.
- Implemented nutrition dashboards, caloric intake tracking, and low intake alert features.
- Applied role-based authentication and responsive UI design for Nurses, Dietitians, and Admins.

Smart Study Planner

- Developed a full-stack study planner web application using HTML, CSS, JavaScript, and Node.js.
- Implemented task management, deadlines, priorities, and progress tracking features.
- Designed a clean and responsive user interface for better user experience.
- Stored and managed data using JSON/local storage with structured project architecture

Smart Inventory Management System

- Developed a full-stack inventory management system using React.js, Node.js, Express.js, and MySQL.
- Implemented JWT authentication and role-based access control for secure access.
- Designed stock tracking, dashboard analytics, and low-stock alert features.
- Applied responsive web design and secure database handling practices.

SKILLS & INTERESTS

Skills: PHP, HTML, CSS, C++, JavaScript, Dart, Flutter, React.js, Node.js, Tailwind, MySQL, PostgreSQL, Microsoft Office (Word, Excel, PowerPoint), MATLAB, Power BI, Visual Studio Code, Canva, GitHub, Capcut.
Languages: Fluent in Malay, Fluent in English, Basic proficiency in Arabic and Mandarin.

Certifications:

- Certificate of Participation – TOP CODERS Malaysia Coding Challenge 2025, University Level (supported by MDEC)
- Dean's List Award – Faculty of Computer Science and Information Technology, UTHM (2023/2024)
- Malaysian University English Test (MUET) – Band 3.5 (2022)
- Machine Learning – SAS Viya
- Foundations of Cybersecurity – Coursera
- Mobile Development – Skillsoft

Hobbies and Interests: Playing futsal, exploring emerging technologies, creating digital content, and learning new digital tools to continuously improve my technical knowledge and creativity.
